Self-Assessment Feedback

Programme	DL836 BSc (HONS) in Creative Computing
Lecturer (s)	Stefan Paz Berrios
Module/Project	Advanced Web Design & Development / CA1
Credits	10
Level 2	First Assessment

Student Name
Ben swan
Date: 15ᵗʰ November 2020

~~Formative feedback~~   **Summative Feedback**

		Excellent / Above Average	Above Average +	Average +	Average –	Unsatisfactory/Weak
1	**Phase 1** Research - Mood boards, visual language, hosting				X	
2	**Phase 2** Design System – (Establishment of design system including font, spacing, colours in Figma and how these were applied across your site)				X	
3	**Phase 3** 2 Website developed using Bootstrap 4., responsive on at least one page, including home page design & dev dashboard design including forms & tables.			X		

STUDENT COMMENTS

Strengths

	I managed to code the HTML and CSS with the help of bootstrap and W£Schools. It was very rushed, as I had left it to the last minute

Areas for Development

	I need to be more responsible about time management and making sure I have all parts of the assignment finished.

Recommendations

	If I were to recommend anything, it would be to not have a research section of the assignment. I know it's an outrageous suggestion, but I myself prefer to hardcode everything and work from there rather than having to look at other websites for inspiration.

A	B+	B	B-	C+	C	D	F	NP

The work presented for consideration complies with regulations and requirements for submission and assessment as described in the programme handbook.
